Pima Air & Space Museum

777 WA001 Tour and Reception

Pima Air & Space Museum opened in 1996 and is one of the largest facilities devoted to aviation and space travel in the world. Of the museum's approximately 350 aircraft, one recent addition may be of special interest to BLN-R members: the first 777 (WA001).

WA001, which rolled out in 1994, first served as a Boeing test aircraft almost 25 years ago and then flew more than 20,000 flights and almost 50,000 hours with Cathay Pacific.

The museum will host a special WA001 program, featuring retired senior executives from Boeing and airlines. Starting at 9 a.m., event participants can view the museum displays and tour WA001. A no-host lunch will be available in the cafeteria. Following, an informal program featuring key retired Boeing executives and customer and supplier members will be held from 2 to 4 p.m. A celebration reception will commence at 5 p.m., with a taco bar and no-host beverage bar.

Note: Participants must make their own travel arrangements.
