

Seabourn, the leader in ultra-luxury ocean and expedition travel, sails to legendary cities, less-traveled ports, and nature's most beautiful sites. Our smaller, more intimate ships allow guests to discover the unexpected—about the world and about themselves.

Guests enjoy ocean-front suites and epicurean dining is theirs on demand. With nearly one team member for every guest, our guests make meaningful connections. With Seabourn, they go further, deeper and experience luxury in action. On a voyage so seamless, so all-inclusive and so far beyond compare, guests never want it to end.

Our newest ships, Seabourn Venture and Seabourn Pursuit, are engineered for expeditions and equipped for exploration in remote destinations such as the Arctic, Antarctica, the South Pacific and all seven continents.
