Habitat for Humanity Women Build 2026

Habitat for Humanity is inviting BLN & BLN-R members to support the September Women Build. What is the Women Build? It is a national program founded in 1991 that empowers women to learn construction skills, raise money and build affordable housing for low income families. Volunteers learn how to use power tools, read blueprints and construct a house from the ground up. Men and women are welcome to participate. No previous experience necessary.

A majority - over 60% nationally and up to 75% in some areas - of Habitat homeowners are female heads of households. The Women Build event helps single mothers and families gain safe, stable and affordable homes.

The Seattle-area multiple day event will be Sept 9 -19 in the South Park area. BLN & BLN-R members are invited to participate individually or as a group.

Please see this link for details and how to sign up. https://www.habitatskc.org/women-build/ BLN-R member Tom Dodt can answer questions at buckeyetom81@gmail.com or contact the Habitat focal directly: mail to: alex.wyatt@habitatskc.org
