Boeing configurator Zarir Pastakia's will discuss how requirements drive airplane design choices, using the A380 as a mini-case-study about design choices including a "what if...". Zarir has 23 years of industry experience, including the development of the 777-8F. He believes the industry must be built on a foundation of a skilled workforce that is focused on customers and is the author of the book "Jet Sense" published by the SAE about transport design.

Registration is required to attend either via Zoom or with brunch at the Museum of Flight. If you plan to attend at the Museum of Flight, please try to complete the required registration form by clicking on [this link](#) no later than January 10th, 2025, to accommodate our planning efforts.

Cheers and looking forward to seeing everyone!
