***Retiree Meeting***

Join us for our regular AIAA Retiree's session, now in a hybrid on-line/in-person meeting at the Museum of Flight. In our May event, Raisbeck Aviation High School students will be presenting prototypes they created this year as part of their Flight By Design class. They would appreciate feedback on their engineering process as well as specific feedback about their prototypes. It should be fun to again hear and provide feedback about what can be done in high school with engineering and aviation.

Registration is required - [Please click on this link to register.](#) Join us in-person at the Museum of Flight, or connect from a computer that has the Zoom software installed so you can see and hear the presentation. If your computer has a camera (so we can see you), and a microphone (so we can hear you) that would be best. Connecting sound via phone is also an option if that works better for you than using a computer microphone and speakers. [If you need help registering or connecting, please contact KarlR@SeaAIAAretirees.com](#)
