Museum of Flight
***American Institute of Aeronautics and Astronautics
Retiree Meeting***

Join us in May for our regular AIAA Retiree's hybrid on-line/in-person meeting at the Museum of Flight. At that meeting, Alnis Smidchens will join us from the UW to talk about how an undergrad team is building [HuskySat-2](#), an open-source CubeSat satellite that will go to Low Earth Orbit in 2025. Alnis is a third-year student in Applied Physics with a focus on electricity and magnetism. Besides being President of the Husky Satellite Lab, he is on the UW underwater robotics team.

Registration is required - Please click on this [link to register](#) as registration is required whether attending via Zoom or in-person at the MoF. If planning to attend in-person in the South View Lounge, please register no later than Friday May 12th to avoid higher costs. All costs are visible during the short registration process. Zoom-only and speaker attendance remain free of charge.

We are looking forward to seeing you on Saturday May 20th, 2023. If you need help registering, please contact Karl at KarlR@SeaAIAAretirees.com

Date: Saturday, May 20, 2023
Time (in-person): 8:00 (doors open) 8:45 (brunch)-11:00 AM
Time (on-line): 8:45 (Zoom opens, introductions start about 9:00)-11:00 AM
