Join us on Nov 16th, 2024, to hear Peter Morton talk about when the 7J7 laid a foundation for technologies and processes on the 777, which was the program that institutionalized the mantra "Working Together." Peter will trace how Working Together matured through decades of experimentation from the 7J7 to the 777 and brought engineering and manufacturing together in Design-Build Teams. Peter has had multiple roles in engineering and HR at Boeing over his 66-year career, was Chair of the Pathfinder Committee for the Museum of Flight Board, and continues to be an active aviation consultant.

Registration is required to attend either via Zoom or with brunch at the Museum of Flight. If you plan to attend at the Museum of Flight, please try to complete the required registration form by clicking on [this link](#) no later than November 8th, 2024, to accommodate our planning efforts.

Cheers and looking forward to seeing everyone!
