Event Sponsor: Dave Anderson, American Institute of Aeronautics and Astronautics

Join us to hear Dan Dornseif talk about the development of the 777 and its Working Together philosophy. Dan is an author who has joined us several times to listen and sometimes talk about other books he has written about Boeing products including the YC-14, the 727, and the 757 (my favorite). Dan, with the help of Alan Mulally, has now published his latest book in that series, for the 777. Hear what he has to say about the program and what is included in the 777 book.

Registration is required to attend either via Zoom or with brunch at the Museum of Flight. If you plan to attend at the Museum of Flight, please complete the required registration form by clicking on [this link](#) no later than November 13th, 2026, to accommodate our planning efforts.

Cheers and looking forward to seeing everyone!
