Internal Committee Issues & Awareness

Title	Description	ECD or Attention
Post-Event Coordinator Role	Working with member event feedback, e.g.) Idea for member survey	11/13
Event Management	60-90 days pre-publication of events for maximum participation. Low attendance events notification to activities chair and business office. Events cancelled before deadline date to avoid refunds to members.	9/13
	Increased focus on events minimums and pricing – Cancelling events after the deadline date/deductions sent to payroll. Incorrect pricing. Time consuming in labor hours (business office and treasurer) processing refunds	FYI (Increased awareness)
Outdated Accurate BERs	Work with coordinators to complete outdated BER's ASAP. (Several are very delinquent. We use the data to create accurate status of our programs, subsidy consumption and budgets) – due within 2 weeks of event date	FYI (Increased awareness)
	Increased focus on BER's accuracy – Several fields are either left blank or reflect data from a former event. Business office spending too much time correcting. Unable to keep up with BLN coordinating so many events.	FYI (Increased awareness)
