

BLNR Habitat for Humanity Build Day Changed to October 22

BLN & BLN-R members,

You are invited to participate in this year's Habitat for Humanity Build Day, Wednesday, October 22. This is an opportunity to join fellow BLN & BLN-R members doing new construction at **Habitat's Miller Creek community in the Burien area**. Please note, our Build Day was originally scheduled at South Park in September, but a change in plans was required for scheduling

reasons. New construction work

seems to be everyone's favorite activity because you really can see that you are providing a hand up to a low income family in your community. You are welcome to sign up as an individual, family (16 years old and up) or work team. Small Boeing or retiree teams have supported these builds in the past and found it to be an ideal team building activity. No prior construction experience is necessary. All training will be provided on site. The work day is 8:45am to 4pm. Lunch is being provided by Habitat thanks to a generous donation from BLN/BLN-R. See an artist rendering of the **Miller's Creek** site and additional information here: <https://buyhabitat.org/burien/>

This has become an annual event for BLN/BLN-R and it is always a rewarding experience. **If interested please email Tom Dodt at buckeyetom81@gmail.com**. Tom can answer your questions and assist you in registering for the event.
