Enrolling for Medicare or changing your existing coverage can be a confusing, frustrating task. With so many different coverage and supplement options to choose from, it is hard to determine the best option for you and your situation. This workshop is designed to help you better understand Medicare and eliminate the confusion about the options that are available to you. We will cover the basics of Medicare, the various parts (A, B, C and D) and changes that could affect you and your retirement planning.

Whether you plan to enroll in Medicare soon, or are already enrolled:• What are my Medicare options?• What are the different parts of Medicare and which ones do I need?• What does Medicare cover?• What doesn't Medicare cover?• Which plan is right for me?• What is the difference between Medigap and Medicare Advantage?• How does Medicare coordinate with other coverage(s)?• When can I make changes to my Medicare Plan?
