

SKIBACS 2022 Trip Book Teaser

SKIBACS has started planning trips for the 2022 season and is thrilled to send this teaser to all our members, to help everyone pencil in their calendar with

next year's fun activities. As usual we will be heading to our most treasured destinations like Whistler and Sun Peaks, with the addition of destinations less frequented or never traveled to by SKIBACS. As you might expect we will be heading to Europe in 2022 as it has been too long since we have made a trip across the pond. I cannot wait, it is going to be great!

Our first trip will be to Whistler, B.C. in mid-January. We in the Northwest are situated in the perfect spot, located remarkably close to North America's premier ski and snowboard destination.

The second trip will be to Sun Peaks, B.C. in late January or early February. This is another popular destination as the resort and mountain has something for everyone.

The third trip is still TBD and will be situated over most school's mid-winter break in February, allowing families with kids to enjoy a ski and snowboard vacation together.

... And to cap off the winter season, SKIBACS will be going to Europe in late February or early March. Where might it be? ... France or Italy or Switzerland or ...
