

## Tom Dodt

---

### BLNR Habitat for Humanity Coordinator

Tom retired from Boeing Commercial Airplanes in October, 2019. In his final position as a Chief Engineer in Flight Sciences - Aerodynamics he was responsible for airplane configuration development, airplane certification, simulation and airplane accident investigation. Prior to this position Tom was Chief Engineer for Production Program Certification. In this role Tom supported airplane deliveries with FAA certification as well as foreign validation. Prior to certification Tom was Chief of the Airplane Accident Investigation team in Airplane Safety where he led accident and incident investigations. The majority of Tom's career was in Aerodynamics – Stability and Control.

Tom is married and has three adult children. His hobbies include hiking, backpacking, kayaking, mountain biking, road biking, racquetball, tennis, travel and woodworking.
