## **October Message from BLN Retirees Executive Liaison Sharon Lucas**

Hello BLNR Members -

Believe it or not, we are in the middle of the "ber" months— September, October, November and December. Travel experts told CNN that the fall season is "the best time of year to go pretty much anywhere" due to lower airfares, fewer people and nice weather. However, with the leaves and temperatures falling and yes the rain is back, if you prefer staying inside - we have some wonderful virtual events on the horizon. Check out our **website** for links and additional information. Until next time...Thanks for your membership and support to the BLNR Community!
